New Managing Director for WAGNER Fire Safety Consulting GmbH

- **Cecil von Dungern joins the Management Board on January 1, 2024**
- **Focus is on further development of Global Account Management**
- **Subsidiary of WAGNER Group GmbH plays important role in further internationalization**

Langenhagen. WAGNER Fire Safety Consulting GmbH is pleased to welcome new Managing Director Cecil von Dungern to its management team. He joined the subsidiary of WAGNER Group GmbH at the beginning of the year. After a transition period of three months, Andreas Erbe will leave the company for personal reasons on March 31, 2024.

Cecil von Dungern has many years of international experience in management positions at Siemens AG and was most recently Managing Director at a financial services provider. In his position at WAGNER Fire Safety Consulting, he will focus on the worldwide expansion of the Global Account Management. "We are observing the increasing relevance of globally operating companies in some of our focus industries. With WAGNER Fire Safety Consulting GmbH, we have specialized in providing these internationally operating companies with both, individual and holistic advice and support in the area of fire safety, in order to implement consistent standards in the companies worldwide. We are delighted to have found in Mr. von Dungern an internationally experienced sales expert for this important business area at our subsidiary," explains Dipl.-Ing. Werner Wagner, founder and Managing Director of WAGNER Group GmbH.

According to Cecil von Dungern, the combination of an implementation-oriented medium-sized company and a corporate group provides him with an attractive working environment. "I am delighted with the trust placed in me. The tasks ahead of me are varied and challenging. Developing WAGNER internationally and in relevant industry sectors forms an important part of the company's growth. I consider this as a challenging area of responsibility which I would like to advance together with the team. Another positive aspect of my work at WAGNER is that I can promote the safety of companies with regard to fire protection – for example in the emerging markets – and thus contribute to protecting people and the environment," explains Cecil von Dungern.

About WAGNER

Since 1976, WAGNER Group GmbH, headquartered in Langenhagen (Germany), has been developing and implementing integrated fire protection solutions and has established itself as an innovative solution and system provider with around 700 employees at 23 locations in 15 countries worldwide. In the field of fire detection and fire prevention, WAGNER group is one of the technology leaders with more than 700 patents. The core competence is in the area of technical fire protection. Here, WAGNER develops individual solutions based on its own products and systems in the fields of fire detection (TITANUS®), fire prevention (OxyReduct®), fire extinguishing (FirExting®) and organization/hazard management (VisuLAN®).
